Project 8C generated design validation report

STATUS: CONCEPT / DESIGN REVIEW / ENGINEERING HOLD

FreeCAD master: 97+ objects, parameter groups, donor references, and generated wel

Structural STEP re-import results
  Front: 18 valid solids
  Cabin: 19 valid solids
  Rear: 17 valid solids
  Interfaces included in combined assembly: 6 valid solids
  Combined structural assembly: 60 valid solids
  Donor review assembly: 307 valid solids (108 C18 + 199 Probox)

Checks
  Units: millimetres
  Axes: +X front, +Y vehicle-left, +Z up
  Body-only scale 2100/1770: PASS
  Structural solids: PASS (non-null and valid)
  Intentional contacts/conflict planes: tagged separately

Unperformed / blocked
  No suspension kinematics approval, clearance approval, FEA, fatigue, brake proof
  Gates G01-G11 remain open.

This package is suitable for design review and donor measurement planning. It is n
