Project 8C rebuilt design validation report

STATUS: CONCEPT / DESIGN REVIEW / ENGINEERING HOLD

The proxy-only pass was superseded. The full review assembly now includes the supp

Re-import checks
  FreeCAD master: 126 objects; no invalid generated shapes
  Structural chassis STEP: 77 valid solids
  Full review STEP: 410 valid solids
  Donor review STEP: 328 valid solids
  Units: mm; +X front, +Y left, +Z up
  Body scale 2100/1770: PASS

Added architecture
  Continuous rail intent, rear cradle diagonals, tower ties, cabin shear reference

Blocked engineering work
  Donor surveys, kinematics, drivetrain feasibility, FEA, fatigue, brakes, restrai
